Here's a compact cruising yacht that's perfect for weekend getaways or winning the twilight race.

Packed with exhilarating sailing performance, the 310 boasts a roomy deck and vast cockpit with comfortable layout, wheel steering and walk through stern.

All sail controls lead aft to ensure ease of sailing with just a crew of two or just you.

Below there is a spacious interior that exceeds the expectations of a 31 footer. This includes your own private double berth sleeping cabin, bathroom with toilet and hot shower, huge galley, nav station, guest double berth and delightful and comfortable saloon area. In all sleeping up to six people if needed.

High quality interior finish includes rich classic teak and ash wood features. The NS310 also comes in an economical version of fibreglass interior mouldings.

Perhaps you would like to fit out the interior yourself and purchase the yacht in kit form. This can allow you to budget the cost of your new yacht over time while using it and achieve your own personal finish with Northshore Yachts assisting where needed.

This yacht has all the legendary style hallmark of Northshore designs. It will deliver sheer performance, with its well proportioned fractional rig and large easily managed mainsail it is extremely easy to control. Its balanced hull design, large rudder and bulbed fin keel give remarkable stability and handling.

In the high tech world of yacht design, the tried and trusted is largely still the norm. The Northshore 31 has stood the test of time with many owners selling their boats for substantially more than they paid for them.
