The Northshore 340 is an extremely popular family Cruiser / Racer. The Northshore range is designed and built here in Australia. The structural integrity of the entire Northshore range is unsurpassed by other production line imports. These yachts have been proven to withstand the vast range of conditions the Australia Climate can unexpectedly produce, giving every owner peace of mind.

All glass internal mouldings are hand laid, bulk heads are individually fitted to the hull of each boat, the plywood used is quality Australian Marine grade plywood with sealed end grain, all cupboards, surrounds and fiddles are hand made solid teak by our team of quality Australian shipwrights. Quality fittings and hardware in all areas of production set the 340 apart.

The Classic lines of the 340 means that it tracks to windward as a performance yacht should without the skipper fighting the helm or the hull sliding sideways. As a result the Northshore 340 achieves in both Club Racing and Regatta results Australia wide. With an existing fleet of 340's sailing and cruising around Australia, many owners either upgrade from the NS310 or hold onto their boat for years.

Due to the superior reputation of the Northshore range the resale value of your vessel will always remain high.

The 340 offers your family a spacious and comfortable cruiser, sleeping up to six people for those long weekends away as well as an achieving twilight entertainer and weekend club racer.

As well as supporting the Australian Boatbuilding industry, this versatile yacht will tick all the boxes as far as safety, affordability, comfort, performance and resale go.
