**AUSTRALIAN  
BUILT**

The Northshore 38 is still undeniably the evergreen classic of cruiser/racers in Australia. The well balanced lines and easy-driven hull have been admired by yachtsmen over the years.

The Northshore 38 comes in two versions. The 38 cruise model provides a smaller easier handled rig for the cruising sailor with less draft to explore Australia's waterways. The 380 Sports model provides a bigger more powerful rig for race winning performance. It also sports a deeper, high performance keel and spade hung rudder.

Both versions provide a comfortable cockpit that's ideal for social or serious sailing. There is also wheel steering, stern landing platform and plenty of stowage.

Below decks the classic interior is perfect for the blue water passage to Hobart or a cruise on the harbour.

Either way you'll relax in the beautiful timber cabin with it's generous saloon area and sleeping for up to seven.

All in all this hand built Australian yacht has proven the test of time. It's structural integrity ensures your crews safety in any Australian weather conditions.
