*Northshore's custom built 460 traces its heritage to a Hank Kaufman design. This classic ocean going design has evolved over the years and taken many owners on fabulous cruising adventures in comfort and style.*

*The Northshore 460 is a powerful, fast and luxurious yacht ideal for trans-ocean cruising.*

*More recently yacht owners have reverted back to Australian built quality products that have stood the test of time. The owners have an input into the configuration and finish they prefer and are secure in the knowledge they can revert back direct to the builder for follow up services that are locally made.*

*This yacht is aimed at the Performance Cruising market. There are four main factors the NS 460 has to offer*

- ease of handling*
- quality of construction*
- design aesthetics*
- versatility*

*All the systems on deck, sheeting, winching, traveller are well designed with purchase and gearing to minimise the effort needed to sail the boat.*

*The below deck layout is comfortable and roomy forward there is a double berth with three lockers and two aft double quarter berths which are mirror images of each other. All offer excellent headroom, hanging lockers and mirrors. The outstanding joinery is solid and a combined teak, ash floor looks spectacular.*

*Throughout the yachts storage and shelving is abundant. The galley is both well equipped and well laid out, seating around the table will hold up to 11 comfortably.*

*Layout, décor and rig can easily be adapted for bareboat charter.*

*Despite being a 46 footer the yacht is easy to sail shorthanded. Spacious cockpit and deck areas make the 460 the perfect yacht for family, corporate entertainment or charter. Below decks offers luxury comfort afloat. There are three massive private rooms and two large bathrooms.*

*This Australian built craft is one of quality and attention to detail.*
